Meals that Taste Great.

Wise Company's variety of entrees and breakfasts are not only hearty and nutritious, but also delicious! We've contracted with professional chefs to come up with menu items that both adults and children will love. Each meal is made up of both freeze-dried and or dehydrated components and carefully sealed in Mylar pouches. You can be sure that when it's re-hydrated and heated, it will have the same enticing taste and aroma as the day it was first prepared.

Freeze-Dried and Dehydration Processes

At Wise Company, we take a unique and innovative approach to long-term food storage and emergency preparedness. Our ready-made entrees include both freeze-dried and dehydrated components, depending upon the food component.

Through extensive evaluation, research and testing, we have combined both freeze-dried and dehydrated products together to ensure optimal taste, texture and nutritional value. Expensive ingredients such as peas and other vegetables are generally freeze-dried. Other ingredients like noodles and rice actually taste better when dehydrated.

Freeze-Dried and Dehydrated Food Advantages

- **Maintains its original flavor, shape, color, and texture**
- **Retains its nutritional value**
- **Condensed in size**
- **With nearly all its water extracted, food is extremely light weight**
- **Adding water quickley and thoroughly reconstitutes food**
- **Wise customers enjoy peace of mind because of the food's long shelf life**

Smart Packaging

Our unique packaging adds value to our meals by protecting them better and making them easier to store and easier to prepare.

- 1. Nitrogen-Flushed Pouch:** Wise Company ready-made meals are packed in airtight **NITROGEN PACKED** pouches. Our unique packaging process removes the majority of the residual oxygen through a nitrogen flushing practice. This in turn simplifies the preparation process by not having to first locate and then remove an oxygen absorber from each individual pouch.
- 2. Mylar Family-size 4-serving Foil Pouch:** Our unique packaging also adds incredible value to our products by making it easier to store, eat, and further prolong the shelf life of each individual meal. Instead of using large #10 cans, we package each meal in its own separate Mylar pouch, thus eliminating waste that comes with opening large cans. This eliminates the need to eat enormous amounts of one particular food all at once to prevent rapid spoilage. Mylar pouches are basically flexible tin cans that gives you the ability to eat what you want, when you want.
- 3. Square, Durable Plastic Container with a Grab—and—Go Handle:** We take the safe-keeping of your food a step further by placing these 4-serving mylar pouches into sealed compact, 4-gallon, square buckets that are easy to stack and store. Because we don't waste space by using and boxing large #10 cans, Wise food storage is much more compact and takes significantly less space.

Smart Packaging (continued)

- 4. Stackable Design:** Each container is notched on the bottom to ensure stackability. In no more space than a washer and dryer takes up, you can store enough ready-made meals to feed a family of 6 for a full year.
- 5. Re-sealable Pull Tab Lid:** Wise's unique bucket contains an easy-to-open, easy-to-close re-sealable pull tab lid.

Great Taste!

Up to a 25-Year Shelf Life

Wise Company ready-made meals are packed in airtight **NITROGEN PACKED** pouches, and then sealed in durable plastic bucket containers. Our unique packaging process removes the majority of residual oxygen through a vacuum oxygen removal and nitrogen flushing practice. Wise Company ready-made meals carry a shelf life of up to 25 years, with no rotation needed. That's 25 years without the stress of wondering if your family will have enough good, usable food when emergencies strikes. Because our entrees don't need to be rotated every few years like other food storage products, buying Wise Company will save you thousands of dollars. As the cost of food keeps going up, in an emergency, food may be worth more than diamonds or gold.

Low Cost!

Easy to Prepare— Just Add Water

Traditional food storage items can be time-consuming and difficult to prepare. Hours of grinding wheat or soaking beans can be labor-intensive and taxing not to mention leaving you with a “meal” that’s hardly appetizing. With Wise Company ready-made meals, simply add hot water, wait 12-15 minutes, and you’re ready to eat.

Affordable

Wise Company ready-made meals are one of the most affordable long-term freeze dried and dehydrated food options available. Our prices are low because we want to work with you to help protect your most important asset—your family.

Testimonials

“We just moved to Manhattan for two years while my husband goes to graduate school, and one thing I insisted on bringing with us was a three-month supply of Wise buckets, which I’m stashing in different spots around the apartment. With a three-year-old and one on the way, it’s comforting to know it’s there in case of emergency.”

— HEIDI FOSS, NEW YORK, NEW YORK

“Our past food storage experience has been a process of storing and wasting. No matter how hard we tried to rotate and use our storage, we always ended up with cans of expired food. With Wise Food Storage, we are done . . . and we don’t have to worry for the next 25 years.”

— CHRISTOPHER SHILL, LAYTON, UT

“We went four days straight eating nothing but Wise food, and our kids loved it; they didn’t get tired of it. . . . In fact, while eating the cheesy lasagna, one of my twin five-year-old boys turned to me and said, ‘Dad, this is the best noodles you ever made!’ . . . My wife and I are kind of picky eaters, and we really liked the meals. They didn’t have the aftertaste of other freeze-dried food we’ve tried. We were pretty pumped about that!”

— STEFAN MAMULA, EVANSTON, WYOMING
